51

Letter no. G.O. 841/27-28 dated 8th June 1920. from the President District Board Tumkur, requesting sanction to the resolution of the Tumkur District Board for the appointment five more Sanitary Inspectors, in the District with effect from 1st July 1920.

The President of the District Board while explaining the necessity for the appointment of the Sanitary Inspectors states, that work connected with the Board cannot be expected to be satisfactorily attended to with the present arrangement and that unless there is any special agency of the Board in the Taluqs, as the Village Panchayat Inspectors can hardly find time to attend to Board's work in addition to their own which is on the increase. Secondly that the S.D.O. want to have back to the control of the Board the maintenance of bits of roads measuring about 95 miles with a view to effect saving of Rs. 1250/- per annum, in the way of Rs. 100/- per charges and to entrust them to Sanitary Inspectors.

NOTE—Contn. Sheet.

File No.

19 of 1927

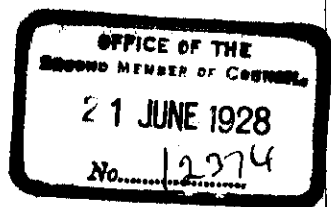

Serial
No.

The proposals result in an extra expenditure of Rs. 6,80 per annum, and as against this the Board anticipate a saving of Rs. 12,70/-, the net increase being Rs. 4,800, provision for which has been stated to have been made in the Budget Estimates for the year 1928-29 which is under scrutiny in this Office. The proposal will if approved be taken up after the Budget for 28-29 is passed submitted for orders.

In regard to the management of roads the arrangement seems to be of doubtful propriety. Separate Engineering Estts for Dist Bds have been declined.

1916.

The opinion of Mr. Chief Engineer may perhaps be obtained on the holding over under the Board's control 55 miles of length of the dusty roads. The Board's proposal to increase the no. of road inspectors seems to require consideration. This will have more about, dispr. R.

Letter No. 11 P. 1011
45 July 28

Returned with compliments,

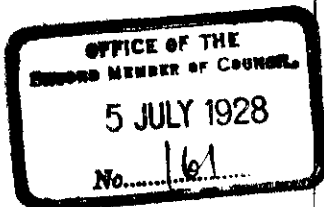

2. It is not desirable to entrust the work of maintenance of roads to the Sanitary Inspectors. Government have also ordered that separate Engineering Establishment for District Boards is unnecessary.

The percentage of establishment and Tools and Plant charges for District Board works is fixed at 18% ^{against about 25%} for Government works, so there is no cause for complaint on this account.

Inst. Shor.
2.7.28.
Chief Engineer of Mysore,

N.J.P.

In view of the above opinion one of the reasons for increase in the 2nd of Sand dep. by 5 will be to exist. The Bd will perhaps have to accept the existing arrangement for the maintenance of the roads & then proposal to take under contract 55 miles of road cannot be accepted. Instead of 5 Sand dep. the Bd may be asked to try with an increase of 3 loads. and if this is found ~~not~~ insufficient, further increase may be considered later on.

Office of the President, of the District Board,

Dated, Tumkur...the 8th June 1928.

16191
K. V. ANANTARAMAN, Esqr., B. A.

President, District Board,

TUMKUR.

11/6/28
No. 9-27. 51

To

K. Ranga Rao, Esquire, B.A., B.L.,

General Secretary to the Government of

His Highness the Maharaja of Mysore,

B a n g a l o r e.

Sir,

I have the honour to state that before the abolition of Taluk Boards in the District there were 11 Sanitary Inspectors working under the control of the District Board & 10 at the rate of one for every -- Taluk, and one in the District Board Office as Reserve Sanitary Inspector, to scrutinise estimates and bills received from Taluks etc. On the introduction of the village Panchayet Regulation into the District, and the consequent constitution of the Board under the New District -- Board Regulation of 1926 with effect from 1st February 1927, a communication was received from Government requesting the Board to consider -- what minimum ^{Staff} was required by them for the efficient discharge of work under the New Regulation. The Board considered the subject at great length and resolved that one Reserve Sanitary Inspector's place would be enough for the present under the Board to have a technical check over estimates and bills received from Taluks and to attend to sanitation -- during Satras, in view of the fact that certain functions which were -- being attended to by the defunct Taluk Boards devolved on the Panchayets and further on the understanding that works connected with the Board in the several Taluks could be got attended to without much expenditure to the Board by the Panchayet Inspectors under the control of the Amildars and Deputy Amildars as the Deputy Commissioner of the District is himself the ex-officio President of the Board.

This was also approved of by Government, and the Board accordingly discharged all the Taluk Sanitary Inspectors with effect from 1st --

February

February 1927 and these were appointed Panchayet Inspectors in their respective places by the Deputy Commissioner.

But experience during the period of one year and 4 months proved that works connected with the Board cannot be expected to be satisfactorily attended to with the present arrangement and unless there is any special agency of the Board in the -- taluks, the village Panchayet Inspectors can hardly find time to attend to Board's work in addition to their own which is on the increase.

Thus the question of the appointment of 5 additional Sanitary Inspectors, at the rate of one for every two taluks, and their selection from among the senior hands out of the old set who are now being employed as village Panchayet Inspectors, in view of the fact that they should command some status in the taluks besides being entrusted with responsible work of the Board, was placed before the Standing Committee for consideration at their meeting held on 19-5-28. The ex-officio District Sanitary -- officer who was present at the meeting also opined that the appointment of additional Sanitary Inspectors as proposed is very necessary with special reference to close supervision over -- vaccination, prevention and suppression of epidemics in the -- District, and Sanitation during Jatras.

It was also thought desirable to take back to the -- control of the Board as an experimental measure the maintenance of small bits of roads measuring about 95 miles which are now being attended to by the Public Works Department, with a view to effect a savings of Rs 1250/- per annum in the way of establishment and tools and plant charges, and to entrust them to these Sanitary Inspectors, in addition to their other works such as supervision over furniture, vessels etc., in Travellers' Bungalows and Musafirkhanas, preparation of estimates and bills for the maintenance of these buildings etc.

The committee on a consideration of the above facts passed a resolution approving of the proposal.

It was then placed before the Board at their meeting held on 26-5-28.

The

The Board also admitted the necessity for the appointment of 5 additional Sanitary Inspectors and sanctioned the recommendation of the Standing Committee.

Copies of the resolutions passed by the Standing Committee and the District Board are herewith sent for reference.

By the present proposal there will be an extra expenditure of Rs 6180/- per annum as noted in the margin.

1 Sanitary Inspector on 72	plus 35 F.T.A.	+107 per mensem
	or Rs 1284/-	per annum..
4 Sanitary Inspectors at Rs 67	plus 35 F.T.A.	= 408 per mensem
	or 4896/-	per annum.

Total		6180/-

But against this expenditure there is a corresponding -- savings anticipated under the following items:-

1. Pay of peon to the Chief Sanitary Inspector whose post was since abolished at Rs 10/- per mensem. Rs 120/-
2. Establishment and tools and plant charges towards the maintenance of 95 miles of road at 18% proposed to be taken over to the Board from the Public Works Department. Rs 1250/-

Thus the net increase in expenditure on the proposed --
arrangement will be Rs 4810/- per annum.

A proposition statement in duplicate as also a statement of works proposed to be taken over to the Board are herein enclosed.

Due provision for the purpose has also been made in the budget estimates of the board for the year 1928-29.

I, therefore, request that early sanction of Government may kindly be obtained to the resolution of the Board for the appointment of 5 additional sanitary inspectors in the District with effect from 1st July 1928.

I have the honour to be,
sir,
your most obedient servant,
H. Pinnahama
for President, District Board,
Trunkur District.

Proceedings of the Govt. of His Highness
the Maharaja of Mysore.

Read :-

Letter No.G.O.841/27-28 dated
8th/9th June 1928 from the President,
District Board, Tumkur, stating that the
works connected with the Board cannot be
~~expected~~ to be attended to satisfactorily
with the present arrangement and that the
Board want to take back to their control
the maintenance of bits of roads up to a
total length of 35 miles and to entrust
the work to Sanitary Inspectors and
requesting under the circumstances sanction
to the resolution of the District Board
for the appointment of five more Sanitary
Inspectors, with effect from 1st July 1928.

Order No.L. 6.86-8

Dated, Bangalore, the 19/7.28

Government consider that it is
not desirable to entrust the work of
maintenance of roads to the Sanitary
Inspectors and the proposal of the Dt.
Board in this respect cannot therefore be
accepted. It is observed that besides
road work, the work connected with
vaccination in the District has become
unsatisfactory owing to the lack of
supervision over the work of vaccinators
and that additional Sanitary Inspectors
are required for the satisfactory and
efficient working of the Board in the
Sanitary and other matters. The

Sanitary Inspector on Rs. 22
 (a. of P.T.A.) 107 per
 annum or Rs. 1264 per annum
 Sanitary Inspectors on Rs. 67
 (a. of P.T.A.) 408 per
 annum or Rs. 4896 per annum

 Total Rs. 6,180.

recommendation of the Board for the
 appointment of 5 additional Sanitary
 Inspectors as noted in the margin in-
 volving an extra cost of Rs. 6180 per annum
 is accordingly sanctioned with effect
 from 1st July 1958.
